## ACCENT ON ART

"This renovated kitchen is ideal for the homeowners who are a very creative couple and love to entertain. We removed the old pantry at the end of the kitchen and extended the bench to create a much larger space for entertaining. We also extended the wall at the top of the stairs to increase storage. The high-gloss cabinets, Caesarstone benchtop and polished Carrara porcelain floor tiles create a high-end finish for the two-tone kitchen, which overlooks the back garden. We commissioned an artist to design and paint the artwork, which was carefully designed around the wall-mounted rangehood. The base colour is white metallic and the glass stretches from the benchtop to the ceiling and the full wall length. It's easy to maintain and adds life and movement, especially as it's reflected in the adjacent grey mirror. The handles also accentuate the length of the kitchen."

Designer: Kathryn Soares Design for Calden Cabinets

*We love the clever use of space and full-height splashbacks.*

### EXPERT TIP

A glass splashback allows you to be experimental and bold.
